Seeking Volunteers for Healthy Ageing Research at Trinity College Dublin
Researchers in Trinity College Dublin Institute of Neuroscience are looking for volunteers to take part in an exciting new study examining how grip strength training programmes influence various types of learning and could provide benefits for the brain as we age. We are looking for 50 healthy adults over the age of 66 who are right-handed. Participation involves approximately 8 hours commitment over the course of 4 weeks, with a short follow-up one month later. If you are interested in finding out more, please email Eimile Holton, School of Psychology Trinity College Dublin at eholton@tcd.ie or call 0858245898.
